# Stop Working Around Your Liquid Handler

Automation should adapt to your workflow, not the other way around.

With the Lynx Liquid Handling Platform and Method Manager 4 (MM4), your lab gains greater flexibility, control, and efficiency at every step.

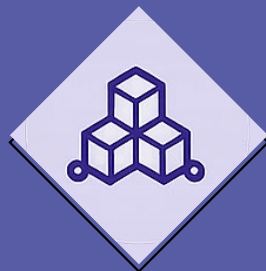

## Simplify Method Development with MM4

Method Manager 4 makes building and refining protocols faster, easier, and more intuitive.

The step function allows reusable building blocks for common actions like:

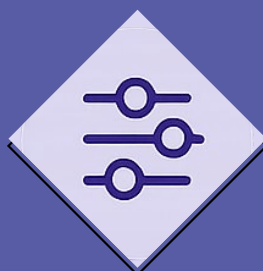

- Tip loading
- Aspiration
- Dispensing

No need to start from scratch every time. A extraction and purification workflows.

### Build Once

Reuse anytime across workflows.

### Fully Adaptable

Customize every step to your process.

### Easy Organization

Visually organize and refine methods effortlessly.

## Built for Smarter Workflow Control

### MM4 includes

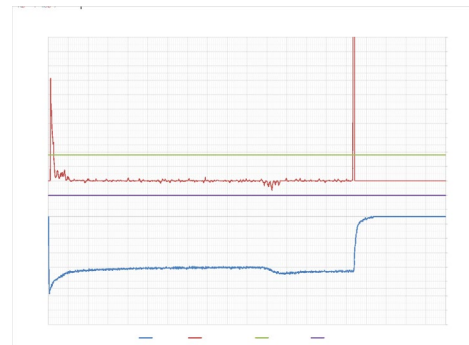

- ✓ Pre-built life science method templates
- ✓ Faster workflow deployment
- ✓ Reduced setup time
- ✓ Easier troubleshooting

### Real-Time Diagnostics

- ✓ Volume Verification (VVP)
- ✓ Liquid Level Detection (LLD)
- ✓ Instrument action logging
- ✓ Full traceability

Pipetting Diagnostics:  
Empty Well (Air Detected)

Pipetting Diagnostics:  
Normal Aspiration

# Never Lose Progress with **Snapshot Recovery**

Mistakes and interruptions happen, but they shouldn't cost you time.

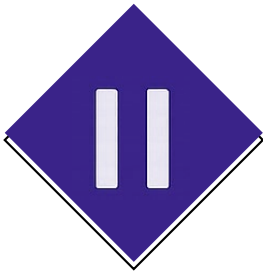

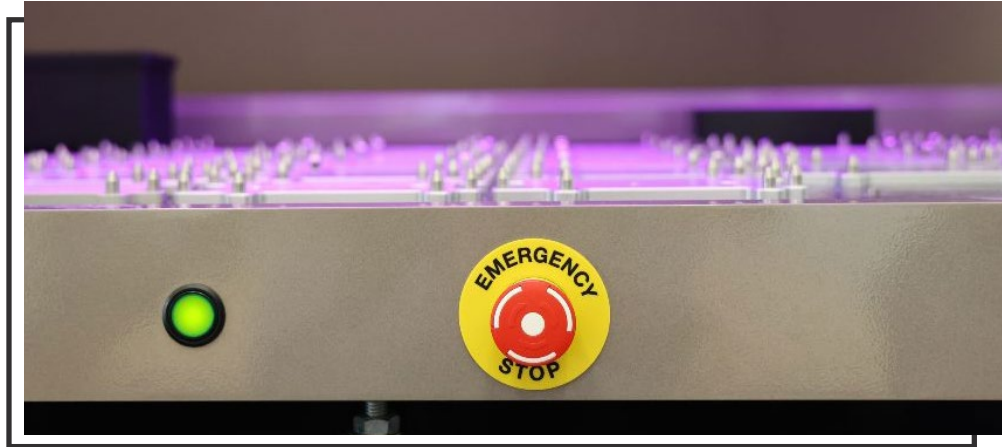

MM4 Snapshot Recovery allows you to:

- ✓ Pause workflows
- ✓ Restart runs
- ✓ Recover from shutdowns
- ✓ Resume exactly where you left off

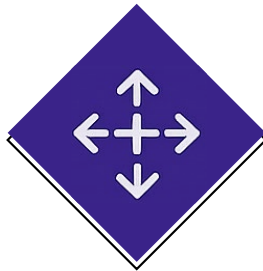

# Fix Errors Faster with **Lynx E-Stop**

More than safety. Lynx E-Stop becomes a smarter method development tool.

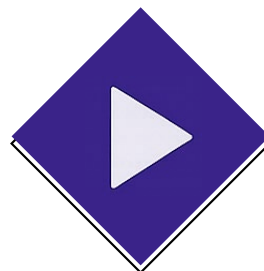

### Instant Pause

Stop runs immediately without losing position.

### Deck Access

Inspect and adjust labware freely.

### Seamless Resume

Continue exactly where you stopped.

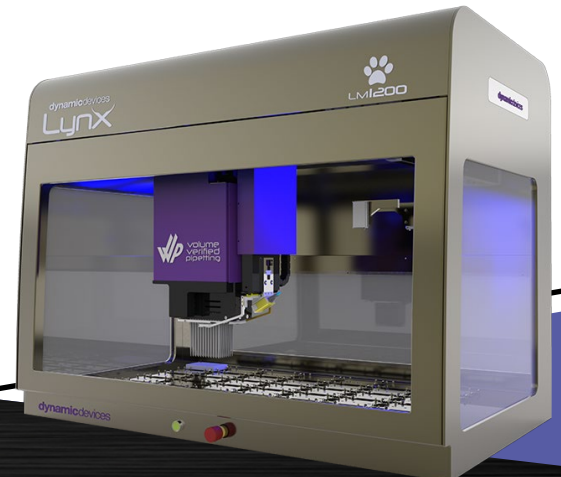

### Precision Positioning

Linear magnetic motors maintain exact alignment during interruptions.

# Designed Around You

Every aspect of Lynx, software and hardware alike, was engineered to make liquid handling easier, faster, and more efficient.

- ✓ No workarounds.
- ✓ No wasted time.
- ✓ Just automation that fits your lab.
